

INDUSTRY

ProProcess is a process-focused engineering firm, able to contribute to a project at any stage of development, from conceptualization, throughout the life of the project, up to implementation and production. ProProcess is a medium-sized enterprise, which services the chemical, metallurgical, petrochemical and related process industries.

ProProcess offers the complete spectrum of engineering and design services to take your project from initial conceptualization, to full functional realization of goals.

These services include:

- Process Engineering
- Mechanical Engineering
- Electrical Engineering
- Piping Engineering
- Civil & Structural Engineering
- Control & Instrumentation Engineering
- Quantity Surveying & Cost Estimating
- System Layouts
- Hazops (Hazard & Operability Studies) and Risk Assessments
- Drafting & Design, Including 3D Modelling

Knowledge and experience of these services are applied to Pilot Plant, Demonstration Plant and Commercial Plant design in order to create a plant that will meet your unique needs and specifications.

**Client Focus:** ProProcess prioritizes the client's needs in every project. The focus is on safety, quality, cost and time, with a zero tolerance policy towards reworking of jobs and defective workmanship. We operate in an ethical and professional manner at all times. Our aim, first and foremost, is to develop appropriate execution strategies in close collaboration with the client.

**Innovation:** We continually strive to discover the best solution to the problem, often by pushing the boundaries of innovation whilst retaining the fundamentals of quality, safety, governance and control.

**Flexibility:** We pride ourselves in our ability to be flexible in the adaptations of our systems, thereby meeting each individual client's specific needs. We are able to represent our clients at all levels of a project, from conceptualization of design, to implementation and production.

**Partnering:** We believe that strong partnerships are the foundations for the best projects. We offer close working relationships with our clients, always making sure we provide the best solutions possible to each specific client at the most competitive rate attainable.

**Competitive Edge:** Through the provision of the highest quality of service at the lowest possible price, we are able to establish and maintain a significant competitive edge when compared with our rivals in the field. All team members are registered professionals who are recognized for their contributions to the industry.

SERVICE

## VISION

ProProcess is synonymous with process excellence within the industry.

## MISSION

ProProcess provides smart, world-class, cost effective process engineering solutions to its client base.

## CORE VALUES

ProProcess puts the client first and understand the issues from their perspective. We work with clients and partners to achieve their goals. We seek innovative, yet cost effective solutions for clients and partners.

## OUR COMMITMENT

We work in close collaboration with our clients, ensuring that tasks are clearly defined and understood. We address current and future needs, through the delivery of value for money solutions.

**“ProProcess: engineered with passion, executed in excellence.”**

## COMPANY PROFILE

ProProcess is a dynamic engineering and design company. We consult and provide design and implementation services to the following industries:

- Mineral processing
- Hydrometallurgy (Base metals and PGMs)
- Acid Mine Drainage
- Petroleum and Petrochemical
- Waste to Energy
- Fine Chemicals
- Food and Beverage

As a multi-disciplined organisation, ProProcess strives to meet clients' objectives by drawing upon expertise in chemical process engineering; research and development; instrumentation; controls; and process analysis.

ProProcess takes pride in its ability to offer a high level of personal attention to all its clients. Clients can depend on speedy, cost effective solutions to their requirements, while maintaining control over project expenditure.

In this way, the investment becomes a joint venture with great benefits in terms of time, expertise and expense for the client.

ProProcess is committed to conducting its business in a safe, socially and environmentally responsible manner. We are an equal opportunities employer and do not discriminate on the basis of race or gender.

ProProcess employs Professional Engineers registered with ECSA (Engineering Council of South Africa). All our designs are produced, checked and approved by a registered engineer prior to construction.

The ProProcess Principal Engineers have post-graduate qualifications in Chemical Engineering, with extensive experience in the field of chemical, metallurgical and petrochemical processing and each have more than 15 years' experience in project engineering.
